

LOIHOA Resident Issue(s) for Board Intervention

In order to define what is in the scope of the LOIHOA Board of Directors' responsibilities, the following Mission Statement was reviewed during the 2011 Annual Board Meeting:

To preserve the premium, natural environment that the Lakes of Indianwood provides its residents by fulfilling the responsibilities as stated in the LOIHOA By-laws and Deed Restrictions.

Occasionally, a resident of the Lakes of Indianwood Subdivision may have an issue or situation that, in their opinion, requires the Board to review and perhaps intercede if in fact the issue/situation falls within the scope of the Board of Directors' responsibilities. Therefore, in order for the Board to have a complete understanding of the specific issue/situation and to enable the tracking of it to resolution, the Board requests that all such inquiries be submitted in writing.

The following process should be utilized:

1. The request for assistance should be sent via e mail to board@loihoa.com
Or USPS
The Lake of Indianwood Subdivision Association
540 N. Lapeer Road, No 205
Lake Orion, MI 48362
2. The request should contain the following information:
 - a. State a summary of the issue/situation including date(s) of occurrence(s) in chronological order.
 - b. Provide photos, if applicable, of the "before" and "after".
 - c. State which specific resident right, in your opinion, was violated/compromised.
 - d. State what specific action you recommend be taken by the Board.
 - e. State what you are willing to do to assist in the mitigation of the issue/situation that you have presented to the Board.
3. The Board of Directors will review the request and will render a ruling, if the issue/situation is within the Board's scope of responsibilities. If not, it will inform the resident of same.
4. The Board's ruling will be sent to the requester via email or USPS.
